

Fall 2019 Ryman Arts - Advanced Painting
9am - 12:30pm, Sat.
Instructor: Holly Boruck
HBoruck@aol.com

Course Description

Advanced Painting builds on the techniques and information learned in Foundation Drawing and Intermediate Drawing & Painting. Students learn primary acrylic painting techniques and will continue to work from observation (with the exception of master works re-creations). Emphasis will be placed on developing the study of color, composition, anatomy, portraiture and landscape. Students should have completed 2 - 3 exhibition-ready artworks by the end of the semester. Students are expected to demonstrate consistent attendance, effort, participation, and willingness to experiment.

Learning Goals

- ❖ To learn the fundamentals of using acrylic painting techniques.
- ❖ To continue to hone skills in relation to the application of composition and color relationships.
- ❖ To practice time management skills in relation to studio time both in and out of the classroom.
- ❖ To build on figure study through anatomy and portraiture study.
- ❖ To further develop an understanding of the principles of rendering in light and shadow.
- ❖ To use historical references as inspiration and learning opportunities in order to develop individual ideas and techniques.
- ❖ To develop problem solving skills and creative solutions.
- ❖ To further develop observational skills and employ them in your artwork.

Critiques

Critiques are the way in which artists and designers relate ideas about their work to others and in the process are able to more clearly analyze their own work. Critique is a group activity where artwork content, ideas, formal qualities and relationships to contemporary art practices are discussed. Feedback from critiques gives you valuable information that will increase your learning potential and improve your artwork. Here are some basic rules: 1) Always be courteous and respectful of others in a critique. 2) Give honest, thoughtful and constructive feedback. 3) Speak to/about the work and not to/at the maker. 4) Try to differentiate between your taste and your critical evaluation of a work. Although the critique process can seem quite strange and uncomfortable at first, it gets easier the more one practices.

Homework & Sketchbook

Homework assignments are to be completed within the time allotted. Every week we will critique homework assignments. Please put your artwork up first thing when you get to class. All homework assignments must have your name and date on them! You will have a sketchbook that you will use to record all the notes, ideas, sketches and clippings related to this class. Consider your sketchbook to be a like a diary that contains the information that you've learned in this class as well as person thoughts and artistic expressions.

Homework assignments will take significantly more time to complete than assignments from your previous Ryman classes. **You will often need to prepare a painting surface to work on in class in addition to your regular homework assignment.** Make sure that you set aside 5 or more hours per week to paint (in a dedicated workspace if possible). Having a dedicated workspace will allow you to spend more time working and less time setting up. Being prepared for class is also part of your homework. You must bring all your supplies for each class.

Attendance

Being in class, ready to work, with all your supplies and a good night's sleep is VERY important! If you have prior commitments, or are sick, please contact the Ryman Arts office and myself. Keeping me informed about your attendance will help you stay up-to-date with lesson information and sengage in the best learning experience possible. Ryman Arts allows students 2 absences ONLY per semester. If you have a third absence it is grounds for dismissal.

Classroom Etiquette

- Be open to and eager to receive feedback about your artwork
- Turn off all cell phones and headsets/earbuds
- Concentrate and focus on your artwork in class (there will be time to socialize before, during break and after class)
- Return tables and easels to designated area at the end of class
- Clean up after yourself at the end of class and help maintain a clean studio

DRAWING REVIEW: Sighting Techniques, Value & Rendering Form

ACRYLIC PAINT: Introduction to Tools & Techniques

MIXING PAINTS - Mixing Your Own Black & Creating a Gray Scale

Handouts: Brushes Info.

Paint Labels & Safety

- ⇒ Intro: Discuss strategies for making sure you have the time and space to complete your paintings.
- ⇒ Demonstration on acrylic painting tools and techniques - Using mediums and water. Cleaning and maintaining brushes. Storing and disposing of paint. Safety when using paint.
- ⇒ Prepare a sheet of 11" x 14" Stonehenge paper with gesso and set aside.
- ⇒ Draw from still life using charcoal on newsprint - review sighting techniques & value.
- ⇒ Learn how to create Black using a mix of colors: Prussian Blue, Alizarin Crimson, Phthalo Green & Raw Umber
- ⇒ Paint a 5 Step Gray Scale on the back side of the prepared gessoed Stonehenge paper - this paper is to be used for your homework assignment this week.

Homework:

1. Still Life Painting: On the FRONT side of the gessoed paper that you prepared in class, paint a simple still life using gray scale (you MUST mix your Black as we did in class - the paint formula for Black is written above). Your still life should have a minimum of three SIMPLE objects and GOOD lighting. One strong directional light works well and will give strong values and interesting cast shadows.

2. Prepare Paper: Paint gesso on THREE sheets of 11" x 14" Stonehenge paper and let dry. This is in preparation for next weeks' class. Don't forget to bring them to the next class meeting!!

3. Containers: Gather small jars and containers that seal TIGHT that you can save your paints in and bring to next class.

PAINTING TECHNIQUES

COLOR THEORY

CLASSROOM STILL LIFE PAINTING - Day 1 of 2

Handouts: Color Theory

Tint-Tone-Shade Grid

Acrylic Blending Techniques

- ⇒ On ONE of the pre-gessoed 11" x 14" Stonehenge papers that you did for homework, create a 12 Color Chart and set up the Tint-Tone-Shade Grid (you'll complete for this for homework).
- ⇒ On the SECOND sheet of 11" x 14" Stonehenge paper practice acrylic painting techniques: wet into wet, wet into dry, dry brush scrubbing and glazing with acrylic medium.
- ⇒ Mix complementary colors B-O, Y-V, R-G to create brown neutrals and desaturated colors.
- ⇒ Discuss underpainting techniques.
- ⇒ Begin classroom still life painting:
 1. Tone the THIRD sheet of 11" x 14" pre-gessoed Stonehenge paper (that you did for homework) with R-G complimentary brown neutral wash.
 2. Compositional Strategy: Use view finders to 'design' your painting - focus on rhythm, balance, pos./neg. space.
 3. Draw the still life 'alla prima' ('all at once') with brown neutral/water mix and small 'round' brush.
 4. Begin underpainting with the #8 & #6 'bright' brushes - lay in value shapes - be careful not to lay in too dark! It's easier to add darker values then it is to adjust to lighter values after paint has dried.

Homework:

1. Complete the Tint-Tone-Shade Grid. Bring to our next class meeting.

2. Master Artist Still Life Replica: Choose ONE of the images from the still life master artworks listed below (I will email these images to you). After you've made your choice, gesso a sheet of stonehenge paper. when dry, use graphite pencils or a small round brush with a Raw Umber paint to draw your image onto your prepared surface.

REMEMBER! Bring your 'in-progress' master still life to our next class meeting.

Giorgio Morandi - 'Natura Morta'

Van Gogh - 'Still Life with Sunflowers'

CRITIQUE: Master Artist Still Life Replica COMPLETED PAINTING

LANDSCAPE & REPOUSSOIR

Handout: Repoussoir

- ⇒ Review 1 & 2 point linear perspective
- ⇒ Discuss Repoussoir - go over handout - remember to work from 'back to front' in spatial hierarchy.
- ⇒ Tape gessoed paper down onto drawing boards, or canvas boards, to prepare for working plein air.
- ⇒ Paint a landscape study using one of the sheets of 11" x 14" pre-gessoed paper (that you did for homework), working inside or outside on the Fullerton campus. We will be using our palette knife for this, NOT brushes.

Homework:

1. Study the work of Charles Burchfield. You need to do your own research on this artist - there are many artworks found easily on a google search. He works mostly in watercolor, however, I would like you to pay close attention to his style and specifically his use of repoussoir. Choose one painting that is your favorite (be

prepared to tell us 'why' in critique) - print it out, write the title on the paper and bring it to class next week. Gesso a sheet of stonehenge paper and let dry. Paint an alla prima color study replica of your favorite Burchfield painting.
2. Palette Knife Landscape: Gesso a sheet of stonehenge paper and let dry. Paint an alla prima color study of an interior or exterior landscape from observation, anywhere in your environment (school, home, city, park, etc.). You will use the palette knife techniques of scraping, scratching & impasto, AND, your painting should reflect one of the four repoussoir techniques. This painting may take a couple of days so remember that if you paint outside the light will shift and change according to the time of day, so plan ahead to be able to paint at a location at the same time of day.

ALLA PRIMA STILL LIFE

Handout: Drapery

Discuss drapery homework assignment - go over the handout.

- ⇒ Alla Prima still life painting with drapery.
 1. Tone the pre-gessoed Stonehenge paper (that you did for homework) with a colored ground of your choice.
 2. Work alla prima and complete your still life painting during this class period.
- Homework:**
- 1. Drapery Paintings Research:** Study the following artworks for their handling of drapery (I will email these images to you):
 - Giovanni Girolamo Savoldo - 'Saint Mary Magdalene at the Sepulchre'
 - John Singer Sargent – 'Nonchaloir (Repose)'
 - 2. Drapery Still Life Painting:** Prepare a gessoed sheet of 11" x 14" sheet of Stonehenge paper and let dry. Use fabric that is a single color, or printed fabric - Set up a drapery still life that you can leave in place - this is VERY important - drapery is impossible to set up multiples times in the same way! If you can't leave your still life in place then I suggest that you set up your drapery still life on a sheet of strong cardboard, or plank of wood, and be able to simply pick up the entire still life and put it away if need be. Don't forget lighting!! Give your still life strong directional lighting from one or two sources - ALSO make sure that you can re-create the lighting scenario, or better yet, leave it in place. **Begin Your Painting:** Tone your gessoed paper - draw in with graphite, charcoal or paint wash - lay in value shapes. Focus on detail to finish your painting.
 - 3. Paper preparation:** Gesso ONE sheet of 11" x 14" Stonehenge paper and bring it to the next class.
