The focus of this class will be to learn the materials and techniques of painting in acrylic. Once we have covered the fundamentals of using the medium, we will learn the process through which a painting is made. This includes developing the concept, gathering visual reference material, creating the sketch and color study. Topics will include color theory, still life, figure, and portraiture.

Please keep the classroom clean. Clean up any paint, pencil shavings, etc. on easels, drawing-horses and the floor.

**Homework**

Homework will be assigned every Sunday and due on the following Sunday. **Late work will not be accepted.** Work must be up on the wall for critique at the beginning of class to receive credit. The finished assignments will be evaluated in a group critique. These
critiques are an important part of the learning process, and all students are required to participate in them.

Homework assignments in this class will take significantly more time to complete than assignments from your previous class. Make sure that you set aside 5 or more hours per week to paint. A permanent workspace is the key to working efficiently, allowing you to spend more time working and less time setting up.

Being prepared for class is also part of your homework. Painting requires a lot of supplies. Unless specified otherwise, please have all your supplies for each class. You will also need to prepare a new painting surface for class unless we’re continuing to work on a painting from the previous week.
